As a globally active company, the P.G.A. S.r.l is firmly committed to the campaign for the preservation of eco system environment and the economic use of natural resources.

Starting from the development stage of our products, their possible impact on the environment is already taken into account.

We pay the utmost attention to the prevention of environmental damage and we do everything in our power to keep as low as possible the burden on the environment.

In this way, we ensure that our products are free of substances and materials that are legally banned or whose use is limited.

We can make available to the competent authorities, or upon request , documentation certifying that the materials and components used in our manufacturing process .

All our suppliers must deliver only goods that meet the guidelines and directives binding and provide the necessary documentation shall demonstrate their compliance.

Respecting the list of exceptions permitted by law , to our knowledge , all our products comply with the above guidelines and do not contain any of the chemicals in excess of the established legal limit threshold , as described below:

1. *Lead (Pb - 0.1%)*
2. *Cadmium and cadmium compounds (Cd: - 00.1%)*
3. *Hexavalent chromium (Cr (VI): - 0.1%)*
4. *Mercury and mercury compounds (Hg: - 0.1%)*
5. *Polybrominated Biphenyls (PBB: - 0.1%)*
6. *Polybrominated diphenyl ethers (PBDE: - 0.1%)*

We declare that the products we provide are in accordance with the restrictions on hazardous substances set out in Directive 2002/95/EC Clause 4 (1), and 5, and Directive 2011/65/EU Clause 4 (2).

The new Directive 2011/65/EU is legally binding as of 3 January 2013. Here, there are transitional provisions staggered to allow adaptation to the new product specifications and for the mandatory CE marking. The RoHS Directive lays down the specifications of the product to be taken from 19 July 2019.
